

## COMMERCIAL KITCHEN VENTILATION CONTROLS

### WHAT IS DCKV?

Demand control kitchen ventilation (DCKV) visually monitors the level of cooking activity and automatically instructs the exhaust fan to operate only as fast as necessary.

**THE INDUSTRY LEADER IN DCKV**

## WHY UPGRADE?

### Discontinuation of IH1 & IH2

Previous versions of Intelli-Hood®, IH1 & IH2, are in their end-of-life stage and parts will no longer be supplied

### Ease of Use

The Intelli-Hood 3 Model now has a 2.5" full color display making the system easier and more intuitive to use

### BACnet IP Ready/Remote Wireless Access

BACnet IP protocol provides a smooth interface to building automation systems/remote access provides an internet gateway for system programming & performance monitoring

### Renewed 3 Year Warranty

On all Melink provided parts and 1 year on workmanship

### Potential End of Life Incentives

Ask a Melink team member to see how your commercial kitchen could qualify for energy rebates

**SUPPORTED IN 125 COUNTRIES & COUNTING**

# IT'S TIME TO UPGRADE YOUR INTELLI-HOOD® SYSTEM

## DISCONTINUED INTELLI-HOOD® MODELS
